

# INTRODUCING SN-APP FROM FRENCH GERLEMAN

**SPEED | CONVENIENCE | MOBILITY**

Mobile options for busy industry professionals. Download our FREE App from the App Store or Google Play. Our iPhone and Android compatible App provides access to what you need in just a *snap!*

## APP FEATURES:

### Product Groups

Product groups are the perfect solution when you order or access the same products or bill of materials (BOM) on a consistent basis. Set-up an unlimited number Product Groups and include as many products as needed within each group.

### Product Categories

Instant access to more than 40 product categories including the latest products and technologies in Automation, Electrical Supply, Datacom, Power Transmission and Safety. Quick access to more than \$24 million dollars in inventory and the product information you need. See your company's pricing and real-time product availability at all six French Gerleman locations.

### My Account

Quick view of all your account information. Check order status from your mobile device, change ship to information, view order history, review product groups, request a quote, use quick order pad, access your active quotes or view saved shopping carts.

### Photo Inquiry

Don't see what you need online? Need a unique item for your next job or project? Click on the "Photo Inquiry" option, provide us with a photo, manufacturer name and brief product descriptions and we'll research availability and pricing options for you.

### Scanner

Scan a product bar code (UPC) to search all available products on frenchgerleman.com. Review the matching result and add the individual part to your shopping cart.

### Upcoming Events

When you're interested in learning about current industry trends and standards or new products and technologies that have a direct impact on your business, count on French Gerleman to deliver relevant training. We offer a variety of complimentary and paid informational events and seminars throughout the year. Conveniently view and register for events from your mobile device.
